## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 2 – 24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 2 and 9, for example which include, a zoom lens having three lens group, having (-, -, +) refractive power and the first lens group consists of a lens having a negative refractive power and a prism for changing a light path arranged in order from the object side and the second lens group consists of a lens having a negative power (claim 1); and a zoom lens satisfied the following conditions:  $0.25 < |fw / f1| < 0.7$ ,  $v1 > 40$  where  $f1$  focal length of the first lens group ,  $fw$  focal length of the total lens system at the wide-angle end,  $v1$  Abbe number of the first lens group's (claim 9) .
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
